NOW THE TIME FOR

TAKING CARE

Sixty million dollars in great deal of money, yet anyone will admit that it would be possible for Missouri to spend such a sum for good roads and lack much of getting value received. Every sum voted or set aside for public purposes is under a shadow of suspicion until its application has been satisfactorily completed. History and human nature combine in making this conclusion warranted. When the public's shakels are rattled, Graft squints an ugly eye and Inefficiency licks his chops and grins.

People generally agree to this, yet comparatively few link the responsibility for same expenditure of public funds to themselves. They cuss and discuss in a casual or meticulous manner, but as for exercising real personal effort, or burning midnight oil in a serious study of the problems presented, they will have none of it. They want it done right, but they want George to do it.

They are having a word of trouble down in Arkansas just now as a result of this age-old failing of human nature. Because the people went to sleep, the pork-barrel system of road building was unloaded on them and they are going to have a titanic struggle to get out from under. It seems likely that, in spite of anything they can do, they will be handicapped through having millions to squander on inefficient road building; on roads that start nowhere and end nowhere. And that the cause of good roads will be hurt in Arkansas for fifty years to come.

This unhappy situation in Arkansas ought to amount to a timely warning to Missourians, who have it yet well within their power to direct the expenditure of \$60,000,000 so that it will go for roads that do start somewhere and end somewhere, and will really mean permanent improvement for the state.—Joplin Globe.

IF YOU SUFFER WITH PILES

THE ABSORBENT METHOD WILL CURE YOU

without pain, without cutting, tying, burning or the injection of carbolic or other irritating acid, without an hour's detention from business and pleasure. This seems almost too good to believe, and I don't ask you to believe it,—just investigate this wonderful new method of curing Piles and see for yourself. Other pile doctors who claim to cure Piles without the knife always use the scissors or an injection of carbolic or other burning acid. The ABSORBENT METHOD is a new discovery, absolutely different and far superior to any other method known. It is known to only seven rectal specialists in the United States, and can be obtained in the West only in Joplin at this office.

The ABSORBENT cure for piles is so easy to take and so quick and positive in its power to relieve and remove piles that patients are astonished. Charges are far less than the old fashioned bloody pile operation would cost.

I cannot cure and do not accept cases of cancer.

Practice limited to official work with positive curative methods for quick and permanent relief of all non-malignant disorders of nose, throat, stomach, intestinal, rectal, uterine, prostate and bladder disorders.

Many chronic diseases produced or maintained by nervous reflex, resulting from some form of irritation of the above named organs and orifices, actually vanish when the cause is removed. Among these auto-intoxication which lowers the bodily resistance to disease, constipation, eczema, acne, catarrh, hay-fever, catarrhal deafness, asthma, diabetes, appendicitis, prostate, uterine and bladder diseases.

Eleven years of honorable and efficient service.

Hundreds of testimonials. Don't submit to an operation until examined by an officialist.

A FARMER CURED OF RHEUMATISM

"A man living on a farm near here came in a short time ago completely doubled up with rheumatism. I handed him a bottle of Chamberlain's Liniment and told him to use it freely" says C. P. Rayder, Patten Mills, N. Y. "A few days later he walked into the store as straight as a string and handed me a dollar saying, give me another bottle of Chamberlain's Liniment; I want it in the house all the time for it cured me."
